9th
Edition

10th

11th

JULY
2025

Hotel Le Méridien, New Delhi, India

THEME:

"THE NEXT HORIZON: DOWNSTREAM 2030, INNOVATIONS FOR A
LOW-CARBON FUTURE."

PARTNERSHIP OPPORTUNITIES

Organised By:

Co-Organiser:

www.refpet.com

FOREWORD

As we embark on the transformative journey towards 2030, the downstream industry finds itself at the crossroads of innovation and sustainability. It is with immense pride and anticipation that we introduce the theme for GRPC 2025: **"The Next Horizon: Downstream 2030, Innovations for a Low-Carbon Future."** This theme underscores our collective responsibility and ambition to reimagine the downstream sector in light of pressing environmental imperatives and unprecedented technological advancements.

The global energy landscape is undergoing a paradigm shift. Refining and petrochemicals, long regarded as the backbone of industrial progress, are now at the forefront of shaping a sustainable future. The challenges posed by climate change, resource constraints, and evolving consumer expectations demand that we transition from traditional practices to innovative, low-carbon, and resilient models. This transformation is not merely a necessity—it is an opportunity to redefine the industry's role in a sustainable global economy.

The GRPC 2025 conference serves as a pivotal platform to explore and exchange ideas on how the downstream industry can lead this charge. By convening global leaders, policymakers, innovators, and thought leaders, we aim to foster collaboration and spark discussions that catalyze transformative change. The conference will spotlight critical areas such as:

- **Decarbonization Strategies:** Exploring pathways to achieve net-zero emissions through renewable feedstocks, green hydrogen, biofuels, and advanced recycling techniques.
- **Digital Innovation:** Leveraging AI, IoT, and digital twins to optimize operations, enhance efficiency, and drive sustainability.
- **Integration and Circularity:** Accelerating the convergence of refining and petrochemicals to create value-driven, circular ecosystems.
- **Policy and Market Dynamics:** Understanding regulatory frameworks and market trends shaping the future of refining and petrochemicals.

India, with its dynamic economy and robust industrial base, is uniquely positioned to lead this transformation. As one of the world's largest refining hubs and a rapidly growing petrochemical market, India offers unparalleled opportunities for innovation, investment, and collaboration. The industry's commitment to integrating renewable energy, adopting sustainable practices, and enhancing operational excellence is a testament to its readiness to embrace the future.

GRPC 2025 is not just a conference; it is a movement to inspire, innovate, and implement solutions that will shape the downstream landscape for decades to come. It is a call to action for stakeholders to push boundaries, think beyond conventions, and co-create a future that aligns economic growth with environmental stewardship.

We invite you to join us at this landmark event as we chart "The Next Horizon." Together, let us pioneer innovations for a low-carbon future and set the course for a sustainable and resilient downstream industry. The journey to 2030 begins here.

HOST PARTNER

GRPC 2025

Package Includes:

- Exclusive Status as the Conference "Host Partner"
- 01 Panelist Slot in Inaugural Session
- 01 Speaking Slot in Opening Panel
- Networking Dinner Host
- 30 complimentary physical delegate registrations for the conference

GRPC 2025

Customized Packages

A customized package can always be designed to meet the marketing needs and budgets of the organisation. Please get in touch with the Partnership team for your customised package.

Partnership Guidelines

GRPC 2025 has instituted the following policies for Partnership opportunities. The Partner agrees that these policies at GRPC 2025 are considered binding and it is the responsibility of the Partner to adhere to the advertising and logo specifications information, because it specifically relates to submittals of company logos to be used in promotion of the Partnership.

Partnership Payment Policy

- ⌘ GRPC 2025 requires a 100% deposit on all Partnerships. This deposit must be submitted with the signed Partnership Contract in order to secure a Partnership.
- ⌘ Upon receipt of a signed Partnership Contract and required deposit, GRPC 2025 will send the Partner a confirmation notice for the Partnership agreement. No confirmation will be sent and no Partnership will be acknowledged or promoted, either in print or on the GRPC 2025 official website, until the Partner has submitted the Partnership Contract and required deposit.
- ⌘ The remaining 50% due amount of all GRPC 2025 Partnerships is due 30 days prior to the event. If a participant has contracted a Partnership within 30 days of the event, full payment is required with submission of Partnership Contract in order to confirm the Partnership.
- ⌘ Should a Partner elect to cancel its confirmed Partnership, the Partner is not entitled to a refund of money paid to GRPC 2025.

Partnership Deadline

In order for Partnership to be promoted in GRPC 2025, Partnership contracts must be received prior to 30th June 2025.

ORGANISER

THE ENERGY &
CLIMATE INITIATIVES
SOCIETY

The Energy and Climate Initiatives Society (ENCIS) is a registered non-profit organisation that supports, encourages & catalyzes the development, discussion and dissemination of consequential research and projects in energy and climate protection industries. An independent, nonpartisan organisation that facilitates stakeholder's analysis and decisions on policy frameworks and initiatives within the global frameworks of sustainable development.

ENCIS produces exclusive and pertinent multi-platform contents fostering inclusive economic prosperity through safer, cleaner, more equitable and climate-friendly energy initiatives. With leading experts on environment, natural resources and energy, the Advisory Board of ENCIS provides the key impetus to the organisation's initiatives & strategic insights on the evolving global industry, steering an immensely profound impact on the economic, environmental and strategic landscapes of the future.
